I. General Overview

DerpFace is an Image hosting site where a registered user can upload images. Its main purpose is for users to upload and share their images with other users. The images are then shown in the user's main dashboard along with images from other users.

II. Getting Started

i. Registering for an account

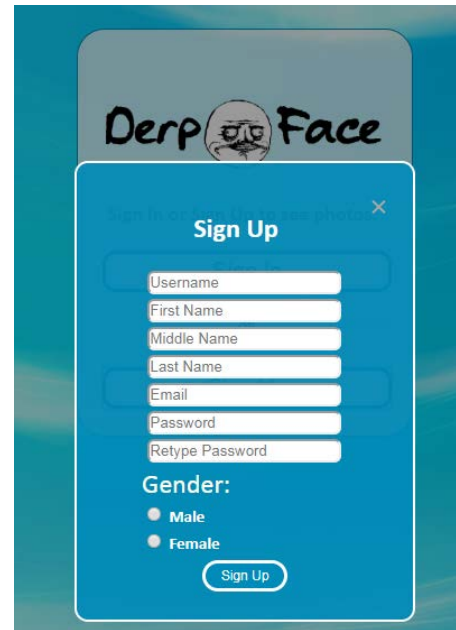

1. Click on the **Sign Up** button on the login in screen. It will open up a modal window that asks the user for their registration details.

2. Complete the registration details in the form. Note that if the passwords do not match and if the username or email is taken, the account will not be made.

3. Click the **Sign Up** button to confirm your account settings. You will be sent to a page that will redirect you back to the login screen.

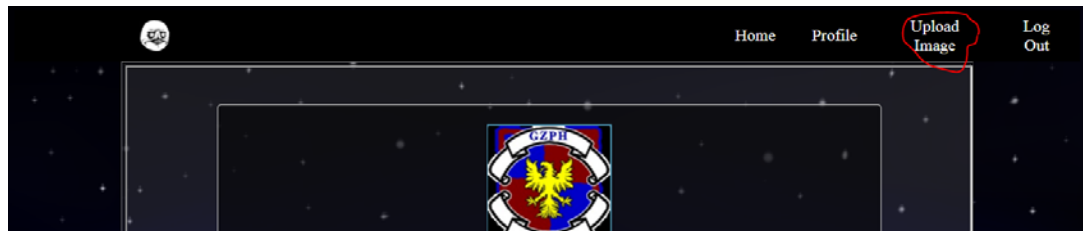

A screenshot of a web form titled "Derp Face" with a cartoon character logo. The form is for "Sign Up" and includes input fields for Username, First Name, Middle Name, Last Name, Email, Password, and Retype Password. Below these fields are radio buttons for Gender (Male and Female) and a "Sign Up" button at the bottom right. The form is set against a blue background with a subtle pattern.

II. Using the site

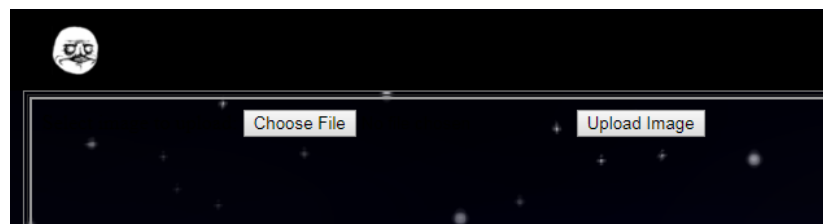

i. Uploading an Image

1. Log In using your registered account.

2. Once you are redirected to the main dash, click the **Upload Image** navigation on the upper right corner of the screen.

3. Click on the **Choose File** button to select an image from your PC. Once you've selected your image, click the **Upload Image** button.

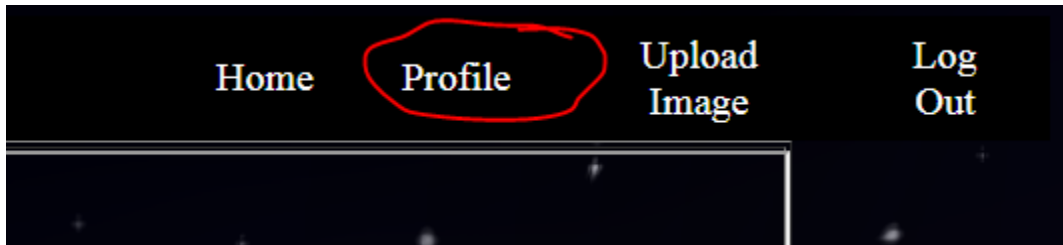

This is only a **project**. Don't take seriously.

I. Developer's Notes

There are multiple bugs present in the site, but it is functional otherwise. These functions include:

- Creating an account
- Logging in
- Not allowing accounts with the same name
- Not allowing multiple accounts with one email
- Password Mismatch is not accepted
- Uploading Imager
- Changing User Information

We sincerely thank you for reading until the end. ♥

*Sincerely,
Felicia & Tamayo*
